Ministry Experience

To what extent are you familiar with Campus Crusade for Christ?

(I'd like to read something to you): Campus Crusade's approach to evangelism can be described as intentional/relational. By that we mean, taking the initiative to build bridges to the lost by forming networks of common ground relationships that create opportunities for evangelism. We use this approach rather than 'friendship' evangelism' because there are many non-Christians who do not have a close Christian friend. We continually meet new people in order to create opportunities to share the gospel in the context of a relationship.

Have you heard of this approach? _____ Yes _____ No

What has been your experience with this kind of evangelism? Are you open to learning how to do it?
